CREATE AI AGENTS CHAMPIONSHIP · BEST YOUTH AI AGENT

Murshid

The AI agent that plans every student's week and gives teachers the full picture

FOUNDER

Sam (Vardan Kapur), Grade 11

STAGE

Working prototype

BUILT IN

Dubai

BEST YOUTH AI AGENT ENTRY

Nobody sees a student's whole week.

Students juggle every subject, test and fixture alone.
Teachers set homework without seeing what else is due.

The problem

406,563

Students in Dubai private schools in 2026–27 (KHDA)

1 : 930

Counsellor ratio at Our Own High School

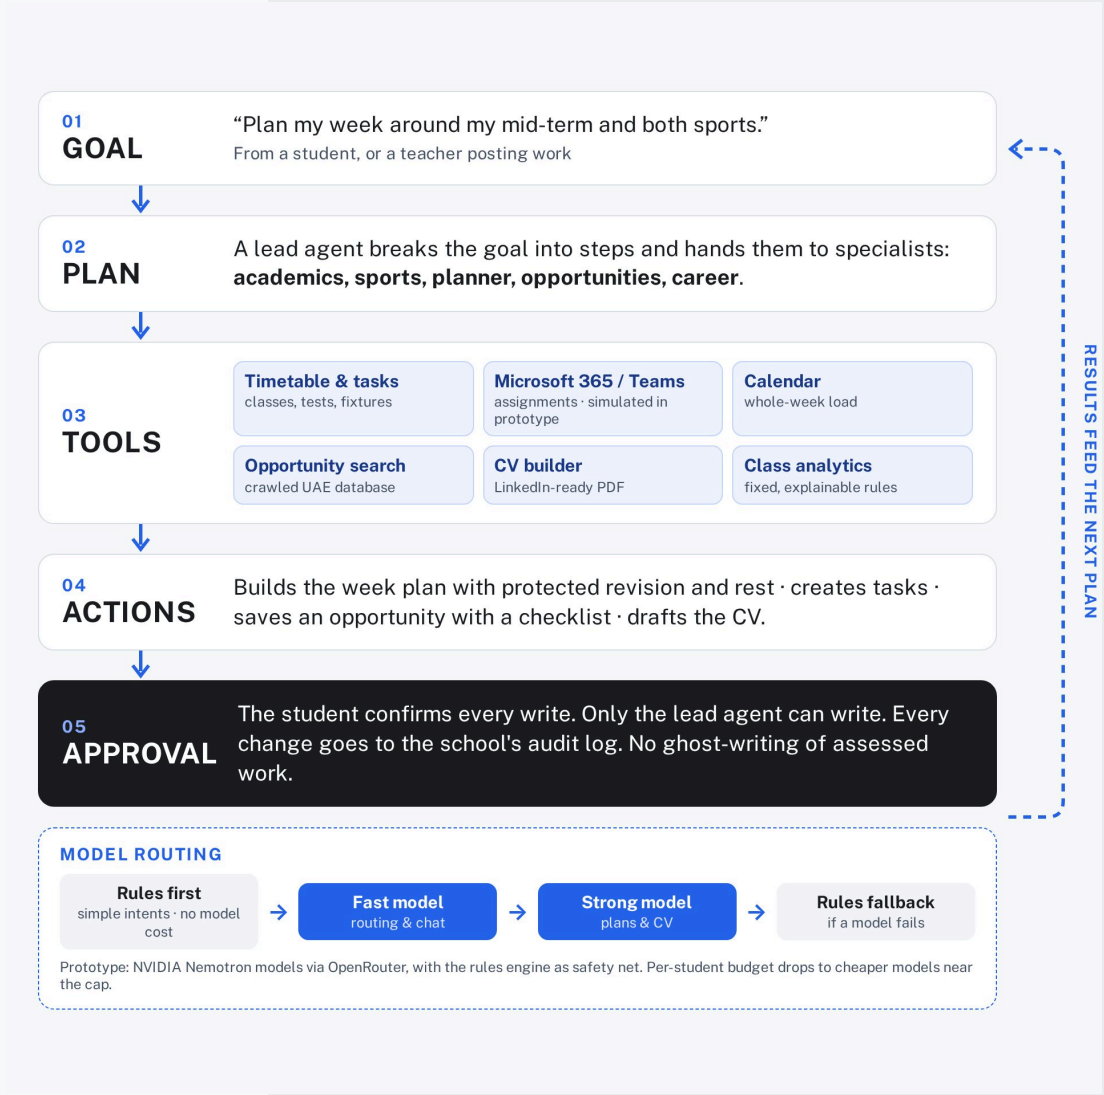

02 · Build

An agent that acts

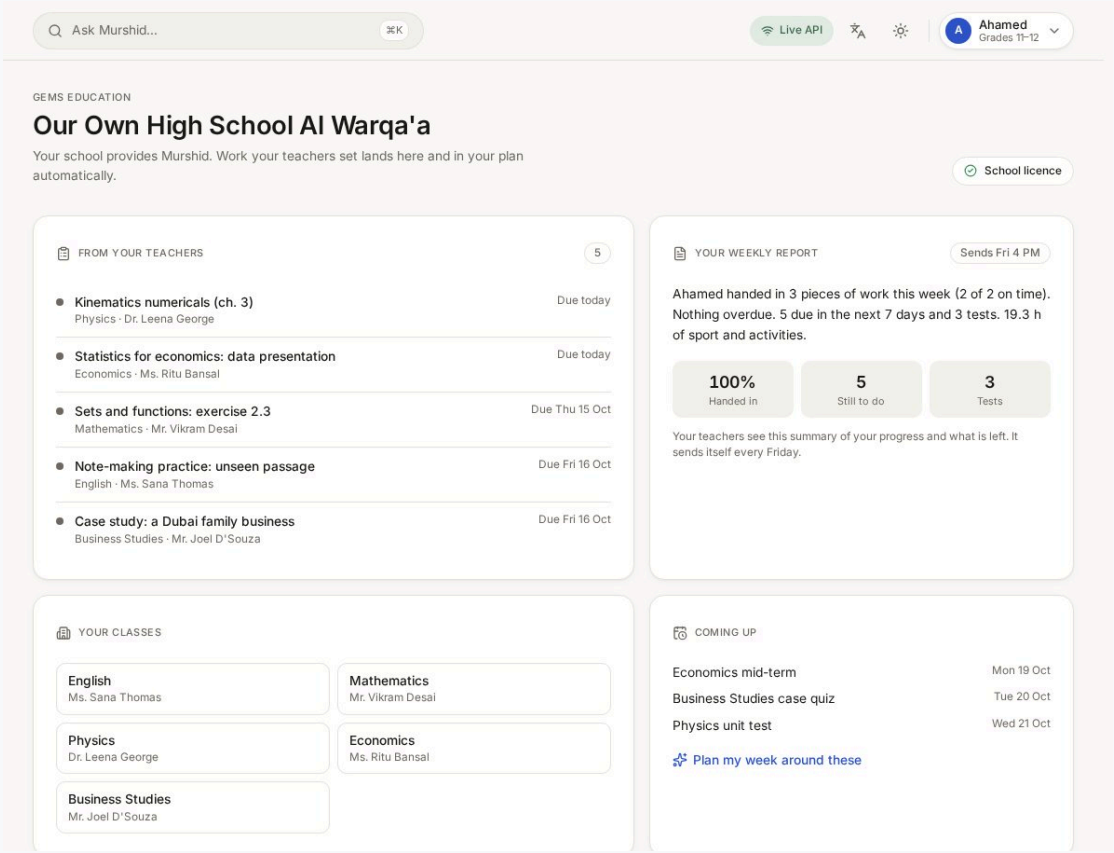

Murshid reads the timetable and the work that teachers set, plans each week, and acts only with a person's approval.

How the agent works

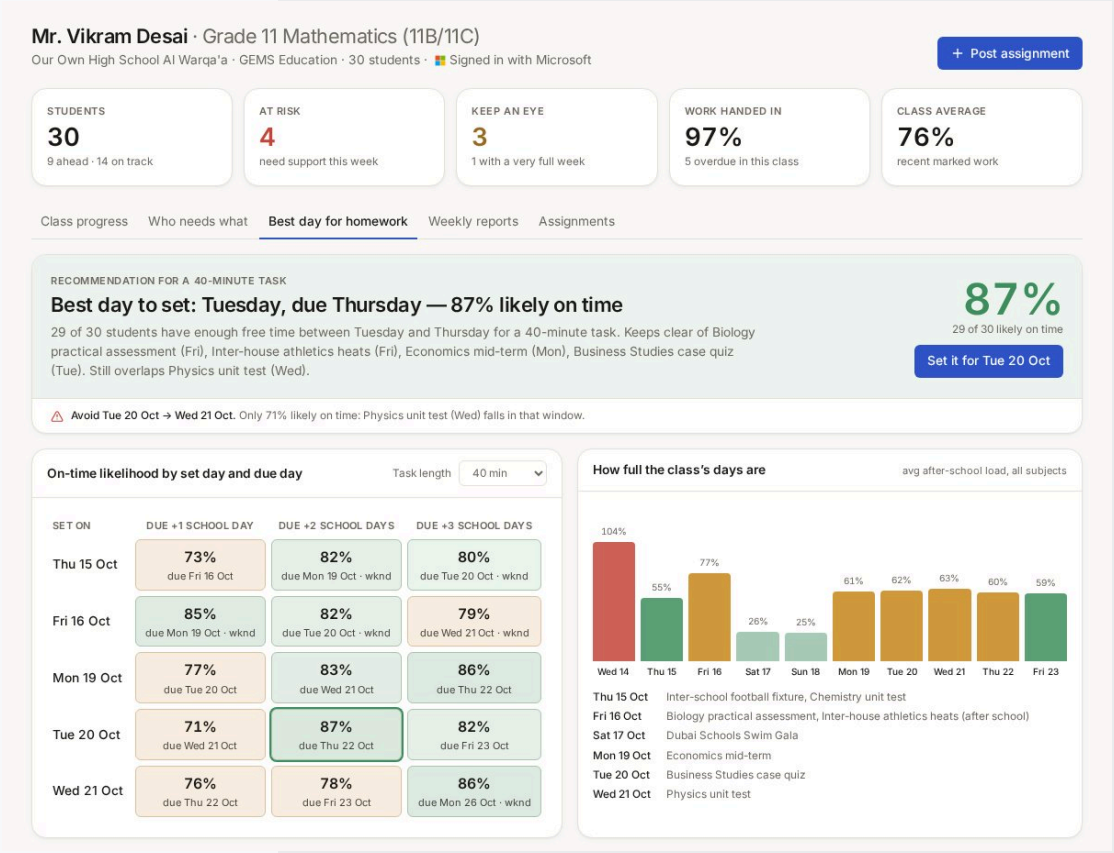

Rules route first. Models plan. A person approves every write.

What Murshid shows

Student · every teacher's work in one plan

Teacher · best day to set homework

Proof so far

628

Automated tests passing on 15 Oct 2026

7

of 7 live-model simulation turns passed

10

of 10 rules safety-net turns passed

38

Synthetic Grade 11 students in the demo

03 · Validate

Proof then scale

Engineering proof exists today. Customer proof comes from a survey and a proposed school pilot.

Validation plan

QUESTION	METHOD	TARGET	RESULT
Do students need it?	In-app survey (/survey)	20+ students	Results to add
Do teachers need it?	In-app survey (/survey)	3+ teachers	Results to add
Does it help counselling?	Counsellor interview	1+ counsellor	Results to add
Does it change outcomes?	Proposed Grade 11 pilot	On-time hand-ins vs baseline	Results to add
Would anyone pay?	Survey question	Parents and school leaders	Results to add

Safe by design

UAE law first

Consent-based processing under the PDPL. Under-13s blocked by a neutral age gate. Guardians for 13–17. No ads.

Separate tenants

School data never mixes with family accounts. Teachers see only the classes they teach.

Human in charge

Any action that writes needs the student's approval. Every change goes to the school's audit log.

Business model

150

AED per student-year · schools (range 120–180)

29

AED a month · family Plus

79

AED a month · family Pro

0.44

USD AI cost per student-month · estimate

Competition

PRODUCT	WHAT IT DOES	WHAT MURSHID ADDS
Abwaab	Curriculum video lessons and study schedules for students	Plans around the school's real work and sport
Classera	School LMS and ERP with an AI assistant	Agent for each student on top of tools schools use
ManageBac+ / Toddle	Planning, assessment and reporting for schools	Workload across subjects and best day to set homework
ChatGPT study mode	Free step-by-step tutor that waits for a prompt	Knows the timetable and acts every week
